TITLE	Multi-Media Materials Catalogue. Supplement I to the Fifth Edition. Secondary Level, Grades 1-12.
INSTITUTION	Hillside School, Cushing, Okla.
PUB DATE	81
NOTE	105p.; The document was developed through the Oklahoma Child Service Demonstration Center. For a related document, see EC 151 694.
PUB TYPE	Reference Materials - Directories/Catalogs (132)
EDRS PRICE	MF01/PC05 Plus Postage.
DESCRIPTORS	Affective Behavior; Career Education; Catalogs; Games; Language Arts; *Learning Disabilities; *Mainstreaming; Mathematics Materials; Reading Materials; *Resource Centers; *Resource Materials; Science Materials; Secondary Education; Social Studies; Study Habits; Vocational Education

ABSTRACT

The catalog, a supplement to the Fifth Edition, presents annotations for approximately 120 multimedia resources to be used in resource and content area classrooms for learning disabled students in grades 7 through 12. Resources are organized according to the topics of reading, math, language arts, science, social studies, career and vocational education, study skills, affective domain, games, and professional materials. Additionally, indexes for each topic are further separated into subsets; for example, the reading index contains such subheadings as comprehension, word attack skills, and developmental reading. For each entry, title, publisher's name, and information such as readability or interest level, are given. Addresses of publishers and an alphabetical title index are included. (MC)

PREFACE

The Oklahoma Child Service Demonstration Center Secondary Learning Disabilities Project has been training schools throughout the nation for the last seven years. The focus of the project is to train teachers in identification, assessment, and instruction of learning disabled students in grades 7-12. An integral part of this nationally validated model is the use of multi-media materials which can be matched to the needs and learning styles of the students.

The fifth edition of the Multi-Media Materials Catalogue, published in 1979, is a comprehensive review of materials appropriate for use with secondary learning disabled students. Supplement I to the Multi-Media Materials Catalogue is a collection and review of the most recently published materials.

Supplement I provides the most current review of materials suitable for learning disabled students in both resource and content-area classrooms. The Supplement is to be used along with the fifth edition of the Multi-Media Materials Catalogue for a concise update of materials appropriate for the learning disabled adolescent (grades 7-12).

Supplement I is organized in sections by subject, i.e. Reading, Math, Social Studies, etc. Each entry includes the title, publisher, readability, interest level, approximate cost and appropriate utilization. A Publishers Index and Alphabetical Title Index are also included in this publication.

It is our hope that this publication will benefit all persons who are concerned with secondary learning disabled students.

MULTI-MEDIA MATERIALS CATALOGUE: A resource of specially selected high interest, low vocabulary commercially prepared materials for secondary students.

MULTI-MEDIA MATERIALS CATALOGUE SUPPLEMENT I: The Supplement is to be used along with the fifth edition of the Multi-Media Materials Catalogue for a concise update of materials appropriate for the learning disabled adolescent (grades 7-12).

PRESCRIPTIVE TEACHING HANDBOOK - CROSSCURRENTS: A resource handbook of strategies, materials and diagnostic profiles used in prescriptive teaching.

IEP MANUAL: This manual is to serve as a procedural guide for educators in implementing the Individualized Education Program (I.E.P.) and Placement process (Public Law 94-142).

DIAGNOSTIC EVALUATION FORMS: A collection of forms currently used at the Oklahoma Child Service Demonstration Center.

VIDEO TAPE - "Remedial and Compensatory Techniques for Secondary L.D. Students": A video tape produced by the Oklahoma Child Service Demonstration Center which is available on a three week loan basis. This video tape is in color and may be obtained in either the 1/2 inch reel-to-reel or 3/4 inch cassette.

TABLE OF SUBJECT INDICES

All materials in the Multi-Media Materials Supplement I Catalogue have been separated into the ten major categories listed below. Within each subject index, the area is further defined, and materials categorized accordingly. For example, the Reading Index contains subheadings which include comprehension, word attack skills, rate, developmental reading, enrichment, etc. The reader may then determine the materials which are most appropriate for specific cognitive or affective development.

READING

Basic Sight Vocabulary Cards (Garrard Publishing Company) Box of 220 word cards. Price Range: $5-$10 per box.

This box contains 220 word cards to be used for basic sight word vocabulary. It is assumed that most 2nd and 3rd graders know these words. A direction sheet lists several alternative uses.

Challenge (Scholastic Book Service) Book. Price Range: $1-$5 per book.

This book is about 5th grade reading level. It has very interesting short stories designed to practice finding the main idea, picking out important details, telling the order in which things occur, and vocabulary. Other related books are Match (3rd grade), Feedback (4th grade), and Spark (6th grade).

Feedback (Scholastic Book Service) Book. Price Range: $1-$5 per book.

This book is about 4th grade reading level. It has very interesting short stories designed to practice finding the main idea, picking out important details, telling the order in which things occur, and vocabulary. Other related books are Match (3rd grade), Challenge (5th grade), and Spark (6th grade).

Horizons (Houghton Mifflin Company) Readability: Low 7th. Series of stories and plays in book form. Price Range: $5-$10 per book.

A series of stories and plays presented in an easy format without appearing too elementary. This is the first reader in a series of 6 levels. Would be very good for a supplementary reading activity.

The Horizons II Language Series (Educational Progress) Readability: 6.75. 15 booklets with answer keys. Price Range: $15-$25 per set of 15.

Fifteen (15) booklets to aid students in recognizing and correctly using various parts of speech and punctuation. In addition, the series helps teach language skills such as dictionary usage, paragraph recognition and writing and figures of speech. Answer keys are included.

Horizons E Reading Comprehension Series (Educational Progress) Readability: 3.5-5.5. 10 booklets with teachers guide. Price Range: $10-$20 per set.

This series consists of ten booklets plus teachers guide designed to develop critial comprehension skills. The reading

Horizons E Reading Comprehension Series (continued)

selections are written at a high interest level, thereby making the booklets appropriate for students at higher grade levels who need to review or relearn basic comprehension skills. Titles include: Recalling Details, Predicting Outcomes, Drawing Conclusions.

I Can Make It On My Own (Goodyear Publishing Company) Readability: Varies 5.5-11.0. Activity book authored by Michelle Berman and Linda Shevitz. Price Range: $10-$20 per book.

Reading activities related to a variety of real life situations in which students attempt to gain independence and "make it on their own". Provides activities to help develop literacy, interpretation, application and vocabulary skills. Should be utilized as a teacher idea book more than a student activity book.

Match (Scholastic Book Service) Book. Price Range: $1-$5 per book.

This book is about 3rd grade reading level. It has very interesting, short stories designed to practice finding the main idea, picking out important details, telling the order in which things occur and vocabulary. Other related books are Feedback (4th grade), Challenge (5th grade), and Spark (6th grade.

The Mott Basic Language Skills Program (Allied Education Council) Workbook. Readability: 2nd grade. Price Range: $1-$5 per workbook.

A programmed workbook designed to help the student understand and retain the meaning of the words/phrases, sentences and paragraphs which he reads. Each reading section is programmed for immediate self-correction.

NFL Reading Kit (Bowmar) 50 reading cards. Readability: 2.0-4.25 Price Range: $75-$80 per kit.

A set of 50 reading cards (3 copies of each) divided into groups of five by reading level. Each card has contemporary picture or photo and corresponding story. The back of each card is a comprehension check. Skills covered include inference, following sequence, fact/opinion and vocabulary.

Read, Write, React (Level orange)(Oxford Book Company) Series of workbooks. Readability: Low 7th. Price Range: $1-$5 per workbook.

This series of workbooks is designed for students who need some improvement in reading skills and systematic instruction in Standard English. The focus is on reading, comprehension (all levels in Barrett's Taxonomy), building english skills, career education, and vocabulary development. It is recommended for regular high school English classes as well as for adults.

READING

Reading Achievement, Reading Competence, Reading Improvement, Reading Performance Series (I.E.S.S., Inc.) Workbook Series. Price Range: $5-$8 per workbook. Readability: 4th - 8th Grade.

Four low readability workbooks geared to high school students experiencing problems in reading and language arts. These workbooks are entitled "Reading Achievement", "Reading Competence", "Reading Improvement", and "Reading Performance". Skill development emphasizes life skills and reading skills.

Reading Comprehension in Varied Subject Matter, Book 1 (Educators Publishing Service, Inc.) Readability: Low 4th. Workbook. Price Range: $2-$7 per workbook.

A workbook geared to strengthening comprehension in reading. This workbook covers the content areas of social studies, science, logic, language, mathematics, literature and the arts.

Reading for Life, Reading for Progress, Reading for Results Series (I.E.S.S., Inc.) Readability: Reading for Life - 1st and 2nd grade; Reading for Progress - 2nd and high 3rd; Reading for Results - 3rd grade. Price Range: $5-$9 per workbook.

Reading for Life, Reading for Progress, Reading for Results
This series of readers range in readability from first grade level through third grade level. The vocabulary is controlled, and each word is introduced before it is used. The series basically relies on a sight-word approach, although letter sounds and phonics rules are included in the lessons. Basic elements of grammar are also taught.

This series would be excellent for use with adolesdents who are non-readers, or who are reading at the first grade level. The sight-word approach allows the use of longer words, and the reading material is relevant to secondary students. It is a life-skills approach that teaches more than survival vocabulary. Reading is taught while important concepts such as health, getting a job, basic writing skills, and community interests are discussed.

The Simple Sentence in Seven Steps (McCormick Mathers Publishing Company), Price Range: $2-$7 per book.

A book which systematically teaches the student how to write sentences and identify and use the component parts of a sentence (verbs, nouns, etc.). Provides activities, work pages, and tests for areas covered.

READING

Spark (Scholastic Book Service) Readability: 6th grade. Price Range: $1-$5 per book.

This book is about 6th grade reading level. It has very interesting short stories designed to practice finding the main idea, picking out important details, telling the order in which things occur, and vocabulary. Other related books are Match (3rd Grade), Feedback (4th Grade), and Challenge (5th Grade).

Super Grammar (Pruitt Publishing Company) Readability: 4th Grade. Workbook. Price Range: $4-$9 per workbook.

This workbook is a motivating resource for supplementing and reinforcing the eight parts of speech. Each activity page uses a different format to hold the student's interest. The workbook shows how to join the parts of speech to make proper sentences.

Superstars of Country, Rock, Sports, and Movies/TV Series (Steck-Vaughn Company) Readability: 5th Grade. Price Range: $1-$5 per workbook.

Stories about artists and stars making the headlines with today's youth. Each book consists of controlled exercises following short stories designed to build vocabularies and increase comprehension.

MATH

All About Fractions (I.E.S.S., Inc.) Soft-bound book. Author: Fulta M. Hillard. Price Range: $3-$8 per book.

This soft-bound book begins with a test of addition, subtraction, multiplication and division of whole numbers. Also included are 10 story problems. Fractions are introduced with visual stimuli. Progressively difficult worksheet pages follow encompassing proper and improper fractions, adding, subtracting, multiplying and dividing fractions, and changing fractions to decimals and percents. May be used at elementary level or for remediation with secondary level students.

Base Ten Mathematics (Activity Resource Company, Inc.) Workbook. Price Range: $4-$9 per workbook.

The activities contained in this workbook are designed as concept developing activities to be used with students as they make use of the Base Ten Blocks. The activities demonstrate how the blocks are a goal to be used for solving problems in the childs' regular mathematics program from grade 1 through junior high. Activities are keyed to prerequisite experience.

Baseball-A Game of Numbers (I.E.S.S., Inc.) Readability: Low 7th Grade. Workbook. Authors: Michael Sentlowitz and James M. Thelen. Price Range: $5-$10 per workbook.

The authors have developed a book of baseball statistics. Describes how most number and math operations are important in baseball. While learning baseball terms, the student learns practical applications of math operations. A mainstream workbook.

Beginning Calculator Math (Fearon Pitman Publishing Company) Book of Activity Sheets. Price Range: $3-$8 per book.

This book with activity sheets to copy is used to make connections between calculator capabilities, the learning of concepts in mathematics, the application of these concepts, and the calculator's capabilities to realistic problems. The teachers guide and skill-and-topic annotations of the activity sheets help connect the activities to the mathematics curriculum.

Calculator Blast-Off (Ideal School Supply Company) Readability: High 7th Grade. Duplicating Masters. Price Range: $3-$8 per book of masters.

A set of 24 duplicating masters which has drill games and computation practices for use with a calculator. Skills involved include estimating quotients, rounding off, place value and problem solving.

MATH

Campers Cove (Southwestern Publishing Company) Packet. Price Range: $4-$9 per packet.

Complete simulated business transactions packet. Ideal for students needing pre-business experiences which utilize book-keeping skills.

Chisanbop (American Book Company) Paperback books. Price Range: $4-$9 per book.

Chisanbop is a method of learning to do math operations using only your fingers. Persons learning chisanbop will need to develop a new interest of working basic operations. These books are clearly explained with many practice exercises. Students proficient in chisanbop can do long multiplication, addition, etc. in a very short time. Very functional for an otherwise non-motivational student who is willing to dedicate some time and effort. Four books take each new phase in gradual, thorough explained stages.

Compucards (Academic Therapy Publications) Cards. Price Range: $4-$8. Author: Paul LoConte.

A set of 48 cards, broken down into three suits. They can be used to illustrate new fraction concepts, as drill, or for recreational activities.

Computation Workshop (Globe Book Company, Inc.) Book. Price Range: $4-$9 per book.

This book is designed to strengthen basic math skills. The book is built around 16 skill areas. "Looking Ahead" exercises begin each unit to identify strengths and weaknesses. Games, puzzles, and fun activities are incorporated in the lessons.

Consumer Buying - Basic Numbers and Money (Allied Education Council) Readability: 5th grade. Book. Price Range: $3-$8 per book.

This material provides practical math and reading activities for the student, utilizing for the most part, newspaper advertisements. Skills which are addressed include vocabulary, comprehension, searching for information, basic math computation and reasoning. A special feature is that all answers are provided in the margins which allow the student to check his work and thus work independently.

This material should prove motivating for most students since the problems are relevant to the concerns of high school students.

MATH

Contemporary Math Shade-Ins (I.E.S.S., Inc.) Duplicating Masters. Price Range: $4-$9 per book of masters.

This book can be used for making ditto and mimeograph masters, student worksheets and overhead transparencies. There is active pencil or ink shading of the answers to mathematical computations i.e. shade-in all multiples of 7. The resulting picture may be displayed in the class or taken home.

Enhance Chance (Activity Resources, Inc.) Book. Price Range: $4-$9 per book.

This book provides dice games that will extend and reinforce mathematical concepts as well as have fun. You can also adapt the games to meet the students specific needs. Would be a good material for middle and high school.

Follett Coping Skills Series (Follett Publishing Co.) Readability: 5th and 6th grade. Workbook and Teachers Guide. Price Range: Workbook: $1-$5; Teachers Guide: $1-5.

This series is designed to help young people and adults apply reading, writing, computation and problem-solving skills to basic tasks required by our complex society. Topics such as Banking, Budgeting, Child Care, Family Planning, Finding Work, Getting Medical Assistance, Job Interviews, and more are presented.

Fortified Fractions (I.E.S.S., Inc.) Ditto and Duplicating masters. Price Range: $5-$10 per book of masters.

This book is a resource of fraction activities for reinforcing skills previously introduced to the student. It is intended that the pages be used to make ditto masters. The answers are in non-reproducible blue. The exercises are highly motivating for the reluctant math student.

Geometric Design Posters - (Creative Publications, Inc.) Posters. Price Range: $1-$5 per poster.

Two posters illustrated with difficult-to-draw designs. Useful for fine motor coordination, language arts activities, and math concept formulations.

Handy Math (Creative Publications, Inc.) Duplicating Masters. Readability of the directions: 7th grade. Author: Jan Fair and Ken Rand. Price Range: $14-$20 for set of three titles.

These books of duplicating masters make math relevant to real life. However, these books are intended for students who have mastered the basic math skills. They can be used

Handy Math (continued)

as supplementary materials, but will not teach the basic processes. The most useful way to use these in the resource room would be as materials to teach basic life skills and calculator practice. They are good material if the students are using calculators, but there is too much complicated calculation per page for most LD students. Appropriate for use in general or consumer math classes to stimulate regular student. The titles, in order of difficulty are: Travel, Sports, and Purchasing.

Ideas and Activities for Using Calculators in the Classroom (Instructor Curriculum Materials) Book. Price Range: $2-$6 per book.

This handbook suggests classroom calculator activities. Many of the activities fit the mathematics curriculum, but examples from science and social studies also are included. Each section of the book is organized so that activities for the lower levels are presented first. Following the description of the activity, a sample activity sheet is usually provided. Teachers resource book.

Improving Math Competency (I.E.S.S., Inc.) Readability: Low 6th Grade. Workbook. Price Range: $7-$11 per book.

Improving math competency is part one of a two part series. Basic math operations are covered in a practical application. The workbook begins with a brief section on how to take tests. Organized in sections this book is very relevant to the older LD student. Each new problem is illustrated and spelled out step-by-step and utilizes a "discovery" method of learning with "helps" if student can't do it on his own.

Mastering Fractions (I.E.S.S., Inc.) Soft Bound Book. Price Range: $3-$8 per book.

Soft bound book includes a sequenced set of supplementary lessons in the computation of fractions. Puzzles and games are included, as are pre/post test and class skills records. To be used with junior high or remedial high school students.

Math Competency at Your Fingertips, Vol. 1 (Fingertips Unlimited) Readability: 4th (Low). Workbook. Authors: Barbara D. Rogers and Kathleen G. Becker. Price Range: $12-$17 per book.

This workbook contains over 100 pages of student activity sheets, lesson plans, and mastery and cumulative tests dealing with the application of twenty adult life skills. Lesson plans include tips on how to establish a low-cost math lab using the newspaper and other free and inexpensive materials. Student activity sheets can be duplicated for use in the classroom. Task cards to compliment each lesson are also available.

MATH

The Math Teaching Handbook (Selective Educational Equipment, Inc.) Handbook. Author: Persis Joan Herold. Price Range: $12-$17 per book.

This is a handbook for tutors, teachers, and parents. The emphasis is on diagnosis of the difficulty and individual remediation. Although the primary emphasis in on elementary aged students, the handbook contains many ideas and materials that would be useful with secondary students. It is a sourcebook for motivating ideas, games, and new ways to approach a difficulty, with an emphasis on using concrete materials.

Mathematics for Adult Living (I.E.S.S., Inc.) Readability: 4.5-5.5 grade. Book. $4-$9 per book.

Interest level 9-12 grade. Includes managing credit cards and contracts, reading monthly statements, dealing with credit bureaus. Reading level 4.5-5.5 grade.

Mathematics for Today (Levels orange and green) (Sadlier-Oxford) Book. Price Range: Teachers Guide $5-$10 per Guide; Workbook: $4-$9 per workbook. Readability: 5th grade.

These two new levels of Mathematics for Today extend the series downward, with topics of interest for grades 6-12. The focus is not completely on employment in these two levels, but rather on sports, hobbies, health, crafts, energy, etc. Each unit has a theme and covers a single mathematics strand. Plenty of practice exercises for basic skill are provided in a motivational, relevant format.

Mathematics for Today's Consumer with Career Application (Charles E. Merrill Publishing Company) Readability: 6th Grade. Hardback Textbook. Price Range: $9-$14 per book.

This hardback text is organized according to applications rather than to the traditional math sequence. The units provide students with the math essential to everyday life while providing a background for the student to pursue many occupations in which math is applied. The basic computational skills needed in each unit are reviewed in the Key Skill sections to allow the student to review a skill before having to apply it. A comprehensive review of the basic operations on whole numbers, fractions, and decimals is provided in the back of the book for use as a diagnostic tool for the teacher.

Reaching Math Competence (I.E.S.S., Inc.) Readability: 6th grade. Workbook. Price Range: $7-$11 per book.

This workbook is a comprehensive math program for assisting secondary students in the fundamental math skills needed to

Reaching Math Competence (continued)

survive today. The activities are presented within the context of everyday situations in which students encounter math problems. The back of the book has a specific skills section where all the operations are taught.

Sportsmath Games (Selective Education, Inc.) Educational Game. Price Range: $5-$10 per game title.

Educational games that provide practice reinforcement in mathematical skills while playing enjoyable softball, baseball, hockey, and basketball games. Games for 2 players or 2 teams. For grades 1-10.

Systemathix (Saddler Oxford) Book. Price Range: Teachers Guide and Text $1-$5 per copy .

The Systemathix method was developed for students needing an interesting and challenging review of addition, subtraction, multiplication and division. It may be used developmentally in elementary levels or to remediate at the secondary level. The different operations are stressed by showing the relationships among these processes. The material is essentially self-teaching and self-correcting. The program includes cues to learning, such as grid paper to help maintain correct columns and rows, directional arrows that guide sequence, reference charts of addition and multiplication facts and more.

Antonym, Synonym, Homonym Activity Cards (Teachers Exchange of San Francisco) Activity Cards. Price Range: $4-$9 per package of cards.

A collection of 5½" x 8½" activity cards containing reusable, reproducible, self-directing activities for improvement of antonyms, synonyms, homonym knowledge.

The Bad Spellers Dictionary (Jean Barnes Gift & Book Company) Dictionary. Price Range: $2-$6 per dictionary.

Pocket size dictionary that contains thousands of words listed as students would spell them. The correct spelling is given beside each word.

Basic Practice in Listening (Love Publishing Company) Book. Author: Lloyd Harnishfeger. Price Range: $4-$9 per book.

The activities in this book provide basic practice in following oral directions.

Capitalization and Punctuation, Intermediate (I.E.S.S., Inc.) Readability: 6th Grade. Workbook. Author: Arnold F. Chicchi. Price Range: $3-$8 per workbook.

This skillbook provides a set of 35 lesson units in capitalization and punctuation. The rules and directions for each exercise are color coded.

Communications: An Introduction to Media (American Book Company) Book. Price Range: $3-$8 per book. Readability: Low 10th.

This book is part of a series which covers an exploration of media including newspapers, magazines, radio, tv movies, books and media of the future. Illustrations are helpful and oriented toward a junior high or mid-high audience. Book is full of "Things to Do" in each section. It uses some bold print for main ideas and has a lot of good "white space" i.e. wide margins, etc. but print is a little too small.

Dictionary Drills (Jamestown Publishers) Readability: High 7th Grade Soft Bound Text. Price Range: $4-$9 per text.

A soft bound text which provides students with practice pages to acquaint them with word origins, parts of speech, multiple meanings and to review phoneme - grapheme correspondences. Emphasis is also placed on other

Dictionary Drills (continued)

reference data that can be found in dictionaries. A paper reprint of the American Heritage Dictionary is included.

Dictionary Skills - Volume IV (Educational Service Inc.) Duplicating Masters. Price Range: $5-$10 per book of masters.

Volume IV of the Dictionary Series is designed to acquaint students with the kinds of information found in dictionaries and provides them skill practice in using the information. These set of masters should be used with junior high, high School, or college level dictionaries.

The Easy to Read California Driver's Handbook (Academic Therapy Publications) Handbook, Word List and Sample Test. Revised by Jerry Stemach and Gail Portnuff Venable. Price Range: $5-$10 per set. Readability: 6th grade.

This manual is especially written for California but could be used for any state.

The regulations governing the operation of a motor vehicle are written so students with low reading abilities can grasp them. Also, words that students may not know are followed by pronounciation guides and are divided into syllables. A word list and samples of the California Drivers's Test are also included.

Earthshapes Posters (12 posters = 1 set) (Creative Publications) Price Range: $6-$11 per set. Posters.

Posters depicting earth in 12 different shapes, such as pyramidal, cylindrical, catalysmal, etc. Useful for Language Experience "What if the earth were shaped like _____" stories.

English for Adult Living - English for Employment (I.E.S.S., Inc.) Duplicating Masters Workbook. Price Range: $9-$14 per book of masters.

This book includes the following survival skill materials: Sample Application Forms, Resume Writing, Filling Out Appointment Cards and Books, Filing Procedures, Understanding and Following Directions plus 19 transparencies.

English for Adult Living - English Grammar (I.E.S.S., Inc.) Readability: 3rd-4th grade. Workbook. Author: Larry M. Parsky. Price Range: Workbook: $6-$11; Teachers Guide: $9-$14 per guide.

English for Adult Living - English Grammar (continued)

This workbook is a very good source book for the secondary level student who needs to review or learn basic English grammar. The 260 pages of grammatical exercises follow a logical, developmental format and are approached from an adult level. The format is very readable and most material is written on 3rd-4th grade level. Teachers Guide is available but only contains answers to workbook i.e. few teaching suggestions.

English for Adult Living - English in the Media (I.E.S.S., Inc.) Readability: 5th grade. Workbook. Price Range: $6-$11 per workbook.

This workbook covers developmental English skills using newspapers, magazines, TV and letter writing. Teachers Guide is helpful with suggestions on each exercise. Nearly 400 pages of very practical exercises make this book very cost effective. Written at the adult level, the readability is 5th grade. A very usable series especially as a supplement.

English for Everyday Living (I.E.S.S., Inc.) Readability: Low 9th Grade. Hardbacked textbook. Price Range: $8-$13 per textbook.

A book designed for young adults to help in mastering those techniques that are vital to success in coping with our present day world. Uses a practical vocabulary and high interest content. Exercises are shaded to help students separate them from the page.

Enrichment Rousers (Ideal School Supply Company) Books with duplicating masters. Price Range: $3-$8 per book of masters.

List of titles: "Vocabulary Plus", "Vocabulary Building", "Grammar" and "Vocabulary Grammar Reinforcement".

This set of four books with duplicating masters offers an exciting and rewarding series of innovative puzzles, word games and a variety of other interesting activities designed to supplement an English Program in the intermediate grades and junior high school. The assignments written in these books stimulate interest involving all areas of curriculum.

Find It (I.E.S.S., Inc.) Readability: 4-8 grade. Author: Libby A Hollombe. Workbook. Price Range: $5-$10 per workbook.

Utilizes alphabetizing skills and provides students with various opportunities to use search skills. Middle school

Find It (continued)

and junior high level students would find this to be a refreshing approach to rather dry study skills development.

Lessons in Writing Sentences I and II (I.E.S.S., Inc.) Workbook. Authors: Woodruff and Moore. Price Range: $1-$5 per workbook.

These two workbooks offer a total of 70 sentence writing activities. Each activity builds upon the prequisite skills developed in the previous activity. The books are developmentally designed so that a person who can't even write a complete sentence can begin and will eventually be able to master effective sentence writing. Very appropriate for secondary level students, high cost effectiveness, usefulness and low readability.

Lifeline - Communication Competency in Reading and Writing (Benefic Press) Workbook. Authors: Joseph L. Gehrman and Muriel Stanek. Price Range: $3-$8 per workbook. Readability: High 7th.

Comparison shopping, catalogue information, word choices, and handling emergencies are but a few of the topics covered in this practically based workbook. Short reading passages are followed by exercises to make use of the recently learned information. Each subject area is begun with a simple "target". Particularly useful with grades 9-12.

Literary Tales (Jamestown Publishers) Readability: 9th grade. Soft-bound text. Price Range: $6-$11 per text.

This soft-bound text contains a selection of short stories and literature related units about such classics as Anne Frank, King Arthur, Gone with the Wind and Great Expectations. Each selection is followed by exercises for vocabulary discrimination, sequential organization, inferential thinking and main idea.

New Dimensions in English (I.E.S.S., Inc.) Readability: 9th Grade. Book. Author: Joanne Schaff. Price Range: $10-$15 per book.

The activities in this book were written for middle school, junior high, and senior high school teachers. Activities are grouped in four categories: Listening and Speaking, Building Vocabulary, Creative Writing, and Using the Newspaper. This text is expecially good for ideas in creative writing, book reports, character analysis or similes. Perforated worksheets with appendix can be duplicated for class use.

LANGUAGE ARTS

Nouns, Adjectives and Verbs Color'n Learn (I.E.S.S, Inc.) Book. Author: Frances S. DiPippo. Price Range: $5-$10 per book.

Excellent puzzle/color format to drill students on the parts of speech. Each task-page results in an innovative design which the students may collect.

Organization Skills (I.E.S.S., Inc.) Workbook. Price Range: $10-$15 per workbook.

The purpose of the booklet is to provide organizational skills development and practice to students using paired-team techniques. It can be adapted to a wide variety of instructional uses. There are thirty lessons in subskill areas such as outlining; developmental order, historical sequence, relationship of parts to whole, size, shape, and time order; main ideas and subtopics.

Potboilers (Academic Therapy Publications) Readability 4-5th grade. Duplicating Masters. Author: Gaylon Duke. Price Range: $11-$16 per book of masters.

Spirit masters are both activity and task sheets. They are intended to reinforce skills secondary students have been learning in class. Math, reading, vocabulary development, thinking, and spatial-perceptual skills -- all are embedded in a chatty, light-hearted format in these sheets. Each of the spirit masters in this program contains from 17-20 questions or activities.

Punctuation (Ideal School Supply Company) Readability: 4-6 grade. Duplicating Masters. Author: Libby Adler Hollombe. Price Range: $4-$9 per book of masters.

The material included within this publication, in the form of duplicator masters, offer a series of innovative puzzles, word games and a variety of other activities to supplement a language arts program. Activities may require the use of reference materials such as textbooks, encyclopedias, etc. Each assignment combines the study of punctuation with tasks enjoyable to students.

Sharing Our Sunshine (Project Viewpoint, Gresham, Oregon) Visual Strategies Box - 180 Activity Cards. Price Range: $25-$30 per box.

This box contains 180 activity cards which are color coded by modality. There is an index card listing the activities

Sharing Our Sunshine (continued)

according to subject. Each card lists the objective of the activity, supplies needed, and follow-up activities. Visual communication is stressed and many cards incorporate the use of body language. The purpose of this kit is to help students communicate and become involved in their learning through a humanistic approach developed by six content area teachers in Oregon.

Sharing Our Sunshine helps students communicate and become involved; students took all pictures for the activity cards. It was developed by six content regular teachers (English, Math, Science, Social Studies, Physical Education).

Short Stories for Teaching Literature (Jamestown Publishers) Readability: High 12th Grade. Soft Cover Book. Price Range: $7-$12 per book.

A 550 page soft cover book which contains 15 separate units, one story per unit. Included are Faulkner, Twain, Shirley Jackson, Steinbeck, Updike, Hawthorne and Poe, as well as other famous writers. Following each selection are comprehension questions, discussion guides and writing exercises. Preceeding each story there is an introduction, character sketch and thought provoking questions.

Short Vowel Activities (Ideal School Supply Company) Readability: 3-4th grade. Book of duplicating masters. Arthor: Moni Trotter. Price Range: $4-$9 per book.

This book of spirit master activities offers a series of innovative puzzles, word games, and a variety of other activities to supplement any language arts program. Each assignment combines the study of language arts with tasks that are particularly enjoyable to students.

Springboards for Writing (Academic Therapy Publications) Book. Author: Brenda McNeal. Price Range: $5-$10 per book.

A sequenced program for written expression. Also could be useful as idea or story starters for daily journals.

Still More Answers (Grosset and Dunlap) Book. Price Range: $5-$10 per book. Readability: 7th grade.

This book will serve as a handy reference to questions many middle school and junior high students still have. Subjects covered include the following: "How do clouds stay up in the air?", "How does a cast help a broken arm?", "Why do fingernails grow?".

LANGUAGE ARTS

Strictly Grammar (I.E.S.S., Inc.) Workbook. Price Range: Workbook: $4-$9 per workbook; Teachers guide: $4-$9 per guide.

In this workbook the stress is on the use of values clarification strategies to challenge students to learn and understand the key elements of English grammar and the eight basic parts of speech. The workbook can be either a basic text or review text. Designed for students in grades 6-9. A teachers guide is included. Readability: 6th grade.

Teaching Written Expressions (Academic Therapy Publications) Book. Authors: Diana Phelps and Trisha Phelps. Price Range: $5-$10 per book. Readability: 7th grade.

This guide teaches three basic skills: generalization, elaboration, and ordering sentences. It utilizes a hierarchial, sequential approach that develops linguistic performance. The student learns to imagine and develop a sense of audience, as well as edit and proofread his own work. The program is designed to treat written expressive language as an interactive, psycholinguistic process.

Thirty Lessons in Note Taking (I.E.S.S., Inc.) Readability: 6th grade. Skillbook. Authors: Jennifer Pirie and Alex Pirie. Price Range: $1-$5 per book.

This skillbook teaches students the principals of note-taking of outside experiences like viewing TV programs, sports events, and conversations. Each lesson provides the student with a note-taking activity.

Thirty Lessons in Outlining, Level 1 (I.E.S.S., Inc.) Book (Pupil Response Booklet). Price Range: $1-$5 per booklet.

Student booklet to record responses to lessons in workbook, Thirty Lessons in Outlining. The format is printed for the student to outline stories with blank lines to be filled in.

Using Our Language (Noble and Noble, Inc.) Workbook. Price Range: $1-$5 per book.

An easy to read workbook about language. Punctuation and writing skills are emphasized.

The Way to Write - Structuring English Sentences (American Book Company) Book. Price Range: $3-$8 per book. Readability: Low 7th grade.

A delightful approach to teaching writing skills and developing basic grammatical skills. Effective use of

The Ways to Write - Structuring English Sentences (continued)

bold print to highlight main ideas and vocabulary words makes this book interesting and fairly easy to read. The print is small and may be difficult for some students. Appropriate for upper grade levels.

Webster's Intermediate Dictionary (Oklahoma School Supply) Dictionary. Price Range: $7-$11 per dictionary.

This dictionary was designed for use in the intermediate (4-8) grades. The words were selected on the basis of their frequency of occurrence in textbooks. It is well illustrated, and has numerous tables, such as the metric system, morse code, and zodiac signs. The pronunciation guide is simplified. The definitions are concise.

Words that Name, Tell Action, Describe, Connect (Educators Publishing Service) Workbook. Price Range: Words that Name and Words that Tell Action: $2-$6; Words that Describe and Words that Connect: $1-$5 per book; Teachers Guide: No Charge.

This material is a programmed workbook series used to introduce the parts of speech. Each booklet is devoted to a particular part of speech and contains indepth analysis and drill exercises. Good for use with junior high or remedial secondary students.

SCIENCE

A Learning Program for Biology (I.E.S.S., Inc.) Workbook. Authors: Wilbur D. Schraer and Robert C. Noelle. Price Range: $5-$10 per workbook. Readability: Low 12th grade.

A Learning Program for Biology is a workbook, activity book which is intended to be used as a supplement with any biology textbook. This book is designed to function as a guide that will help select and explain the key ideas of modern biology. It functions as a idea book for the teacher.

Action Biology (Allyn & Bacon, Inc.) Workbook with teachers guide. Price Range: Text: $10-$15; Teachers Guide: $6-$11. Read.: 7th.

Action Biology is an excellent biology book for low readers. Many pictures, drawings and diagrams compliment the written aspects. Each chapter has a word guide with a phonic pronunciation guide as well as having key words highlighted in bold print. Text emphasizes activities rather than lecture. Chapters are short with a definite de-emphasis on reading. The accompanying teachers guide is very helpful.

Concepts and Challenges in Physical Science (CEBCO Standard Publishing Company) Readability: 6th grade. Textbook. Authors: Bernstein, Schachter, Winkler, Wolfe. Price Range: $4-$9 per book.

Concepts and Challenges in Physical Science is a supplementary text in science which should be very beneficial in the education of the more important scientifc concepts. It is appropriate for middle school students. It would be especially appropriate as a supplementary text for the learning disabled student. Some of the outstanding features are: within each unit, review questions in blue type follow each paragraph which teaches a new concept in order to reinforce and ensure comprehension of that concept. New vocabulary terms are underlined in red, spelled phonetically and defined in a glossary as well as the body of the text. Each unit ends with several review questions and the major topics covered are summarized under the heading, "What You Learned." This should be a highly useful supplementary science text for the learning disabled student in middle school or high school.

SCIENCE

Concepts and Challenges in Science, Book 1, 2 and 3 (CEBCO Standard Publishing Company) Readability: Low 7th (7.25). Workbooks. Price Range: $4-$9 per workbook.

Concepts and Challenges in Science is an excellent series for students with reading problems. Each of the three workbooks has sections on Biology, Chemistry, Physics and Earth Science. Also included are jobs and careers relative to science and an excellent glossary. Chapters are very short with color coded ideas, large print, phonetic spelling of new terms, lots of color and helpful illustrations. Each chapter has reviews suggesting comprehension questions and question stimulation. An excellent series which appeals to most middle school and high school students.

Earth Science and Biology Workshop, Series 1,2, 3. (Globe Book Company) Readability: 3rd-4th Controlled Vocabulary. Workbooks. Author: Seymour Rosen. Price Range: $2.70 per workbook.

These are excellent workbooks that cover the content of the high school curriculum, although in a different order from a regular textbook. The lessons are short, which make them ideal for use as supplements to the regular text. Each unit is composed of the following: (1) a vocabulary list with definitions; (2) a short reading selection explaining the concepts and terminology of the unit; (3) worksheet on diagrams relevant to the unit; (4) comprehension questions in various formats, to reinforce the learning of the material; (5) a motivational activity, such as puzzles utilizing the terminolgy; (6) a writing exercise; (7) some units have laboratory exercises.

Foundations and the Solar System (Prentice-Hall, Inc.) Readability: 3rd grade with controlled secondary level vocabulary. Book. Author: Bernstein and Wong. Price Range: $3.21 per book.

Good for use with secondary level students especially as supplementary text. Emphasis is on matter, time, energy and the solar system. The low readability with controlled vocabulary still allows for coverage of secondary level concepts. The worksheets are especially designed to cause a minimum of frustration.

Geodynamics (Earth Science) (Prentice-Hall, Inc.) Readability: 3rd-4th grade with controlled vocabulary for secondary level. Book. Authors: Bernstein and Wong. Price Range: $3.21 per book.

Learning by doing as in the rest of the Ideas and Investigations in Science Series is the emphasis of this book on geodynamics. Destruction and construction forces within the earth are explored and investigated.

SCIENCE

Ideas and Investigations in Science (Life Science) (Prentice-Hall, Inc.) Readability: 2nd grade with a controlled vocabulary appropriate for secondary level. Book. Authors: Wong, Bernstein, and Schevick. Price Range: Hardback Textbook: $9-$14; Lab Book: $3-$8.

This book is exceptionally well designed for secondary level students with poor reading skills. It interestingly and graphically displays each of the activities and relates concepts to real life types of experiments. The emphasis of the book is exploring ideas or concepts in life science through investigation and experimentation. Graphic aides and words are large and well placed on pages. Notebook that comes along with it is also well designed.

Learning to Use Science (Steck-Vaughn Company) Readability: 7.25 Grade Level. Authors: Kay L. Ware and Gertrude B. Hoffsten. Price Range: $2-$6 per book.

Each chapter is a separate unit. Useful for supplementary material. The book is not in color, but pictures and diagrams are helpful. Emphasis on ecology in parts of the book. Key words are highlighted but no glossary is included. Correlates closely with "This Earth of Ours."

Meteorology and Oceanography (Prentice-Hall, Inc.) Readability: 2-3rd grade with controlled secondary level vocabulary. Workbook. Authors: Bernstein and Wong. Price Range: $3-$8 per book.

This highly readable workbook/textbook is well written for secondary level poor readers. It would be a good supplementary material for earth science. All investigations are pictorially displayed and well explained.

Physical Science (Earth Science) (Prentice-Hall, Inc.) Readability: 2nd grade with controlled level vocabulary. Book. Price Range: $3-$8 per book.

Emphasis of this book is on doing activities and working through concepts. The low readability and excellent graphic aides make it very useful for poor readers. Step-by-step pictures demonstrate each experiment or activity. The book has holes punched so that it could be kept in a 3-ring binder with other materials.

Science Reader (Readers Digest Association) Readability: 6.5. Series of seven books. Author: Franklyn M. Branley. Price Range: Duplicating Masters: $3-$8 per book of Masters; Readers: $1-$5 per reader; Teachers Guide: $1-$5 per guide.

A series of seven books consisting of short readings in earth, life, and physical science. Each reading is accompanied by a

Science Reader (continued)

worksheet (duplicating master) emphasizing comprehension and vocabulary skills. Most readings are followed by simple experiments and suggestions for further readings. A glossary is included in each text.

This Earth of Ours (Steck-Vaughn, Inc.) Readability: 7.25 grade level. Book. Authors: Kay L. Ward and Gertrude B. Hoffsten. Price Range: $2-$7 per book.

This workbook has a fairly low reading level. Pictures and diagrams are helpful but book is not in color. Key words are highlighted but no glosssary is included. Numerous fill-in-the-blank and essay questions are contained in the book. Questions are spaced out with not too many to a page. A good supplementary material.

The Whole Cosmos Catalog of Science Activities (I.E.S.S., Inc.) Readability: 7th grade. Book/Catalogue. Authors: Joe Abruscato and Jack Hassart. Price Range: $9-$14 per book.

The catalogue is a sourcebook of experiments, ideas, and activities that can be used in or out of the classrooms for learning disabled students. It is best used as a professional material, since the readability is high. The activities cover many aspects of science, using activities, games, puzzles, and biographies. The activities can be used for class projects or as part of an individualized program.

SOCIAL STUDIES

American History Part 1-4 (Follett Publishing Company) Series of books on American History. Price Range: $3-$5 per book. Readability: 8th grade.

Each chapter has the following sections: Words to Understand, New Words in Sentences, As You Read, and the "Reading Selection", featuring short sentences and key words in bold print. This book has colored pictures and maps. Chapters are short with a four-part comprehension check at the end: A. Recognizing the main idea; B. Selectivity, important details; C. Vocabulary series; and D. Map words. Part One covers Prehistory to 1789, Part Two-1789 to Reconstruction, Part Three-1865 to the Present, and Part Four - World Power: Foreign Affairs to Present. An excellent series.

Government by the People - Part 1, The People's Power - Part II (New Readers Press) Series of Soft Bound Books. Author: Katie Baer, Price Range: Part 1: $2-$4 per book: Part II: $1-$3 per book. Readability: 8th grade.

A concise set of two softbound books which explain the story of the federal government from the origins of the Constitution through contemporary politics. Included are the branches of government and their functions, political parties and our electoral system.

Insights About America (Educational Insights) Kit contains spirit masters for each section (3 selections), teachers guides and booklets. Readability: 4th grade. Price Range: $66-$70 per kit.

Insights about America presents factual information in an unusually readable, lively format. The three sections, The American Revolution, The War Between the States, the Frontiers West, each contain 16 numbered page booklets detailing key personalities and events in American History. Each booklet has a final section entitled "Thinking it Over" that contains comprehension activities. A booklet of spirit masters accompanies each section. Very colorful and interesting.

Oklahoma Survival (Holt, Rinehart and Winston) Readability: 7th Grade. Workbook. Authors: Betty L. Hall and Mary Lois Brown. Price Range: Teachers Guide: $2-$5; Textbook: $3-$9 per book.

This workbook is designed to teach 'survival skills' to secondary students about to enter the world of work and

Oklahoma Survival (continued)

independent living. It is one of a series that contain similar workbooks for most of the 50 states. Some of the major topics which are covered include: Job Hunting, Tax Forms, Road Maps, Applications and Use of Want Ads. Each section generally consists of an textual overview, comprehension questions and applied activities (e.g. filling out the relevant forms). The overviews include a glossary of the most relevant vocabulary. A concise, clear Teacher's Guide is provided. The reading demands of this book (7th grade Fry Readability) will require that the teacher monitor closely those students with reading problems.

Your Government and You (Frank E. Richards Publishing Company) Workbook. Price Range: $2-$5 per workbook.

Primarily about the Constitution. Good visual format. Worksheets follow each section.

Our United States (New Readers Press) Softback Text. Price Range: Text: $1-$5; Workbook: $1-$5. Readability: High 6th Grade.

The softbacked 64 page text includes a one-page description of each of the 50 states. A brief history is given, as well as major industries, trade and cities. Write-ups are also done on the Panama Canal Zone, Puerto Rico, the Virgin Islands, U.S. Islands in the Pacific and Islands governed for the U.N. The accompanying workbook devotes one page to each state with 15 comprehension questions such as "What is this state's nickname and abbreviation?" "What do the factories in this state produce?"

Social Science (Reader's Digest Services, Inc.) Readability: Book 3 - 3.0; Book 4 - 3.5; Book 5 - 5.5; Book 6 - 6.5. Teacher's Guide, Reader, and Duplicating Masters. Price Range: Teacher's Guide: $1-$2 per guide; Reader: $1-2 per book; Duplicating Masters: $3-$6 per book of Masters.

This series of seven readers is designed to reinforce reading comprehension while introducing the students to various social science concepts. Reading skills involved are fact vs. opinion, recalling facts, sequencing, context clues, skimming, etc. Social studies topics range from U.S. History to life in other countries. Each reader contains selections on the U.S. and other countries, suggestions for further reading, a glossary of terms, and duplicating masters.

SOCIAL STUDIES

South and Central America Geography Kit 1 (Educational Insights) Kit. Readability: 4.6. Price Range: $2-$5 per kit.

Set of 50 task cards plus answer sheets. Activities include crossword puzzles, maps, mazes, rebuses, matching and secret messages. Skills enforced are details, vocabulary, sequencing and comprehension.

Target American History (I.E.S.S., Inc.) Readability - Low 6th. Workbook. Author: John H. Hoek. Price Range: $4-$9 per book.

This is a simplified workbook of American History which outlines the major historical periods of the U.S. It includes the settlement of the U.S., the development of our nation, the major wars, famous Americans, detente, and an American History Time Line. Ditto masters and a teachers guide are available.

World History (Follett Publishing Company) Readability: 8th Grade. Contains four paperback books per set. Author: Jack Abramowitz. Price Range: $11 - $16 per set of 4 titles.

This series contains four paperback books (each approximately 150 pages) concerning the following topics: 1. From Stone Age to Renaissance; 2. Democracy and Change to 1815; 3. Democracy, Nationalism, Imperialism to 1914; 4. Twentieth Century Problems. Each lesson has short passages to read followed by comprehension checks. Special feature is that each lesson introduces special vocabulary (used in example sentence) plus a purpose to read.

Our USA to 1865 (Steck-Vaughn Company) Workbook. Price Range: $1-$5 per workbook. Readability: 8th grade.

A reading workbook of American history. Chapters are short, definitions are provided for vocabulary in body of text.

The Young American Series (Fearon Publications) Workbook. Price Range: $1-$5 per workbook. Readability: 7th Grade.

Low level workbooks which provide short reading passages with many visual clues to assist in exercises. Written instructions are both short and sequential. Topics cover community services through governmental concepts such as: state taxes, state courts, and definition of a state.

CAREER AND VOCATIONAL EDUCATION

Becoming a Driver (Janus Book Publishers) Workbook. Price Range: $3-$6 per workbook. Readability: 4.5 grade level.

This workbook offers survival information to the student after he/she has passed the driving test. Topics covered are: insurance, accidents and knowing what to do in case of an emergency.

Buying with Sense (Pitman Learning, Inc.) Readability 2.4-2.8. Workbook. Author: Carol L. King. Price Range: $5-$10 per workbook.

A basic consumer text-workbook that shows the reader how to survive in the material world of dollars and sense. This consumer math workbook stresses not only saving but also buying with sense. Each chapter concludes with a posttest which serves as an assessment of the amount of learning that has taken place. A teacher's manual is included.

Career Caravan (I.E.S.S. Inc.) Readability: 6th grade. Workbook. Price Range: $6-$9 per book.

This student workbook provides a variety of career awareness activities for upper elementary through middle school levels. Many activities could be extended outside the classroom.

Consumer Education I and II (EMC Corporation) Cassette Kits. Readability: 5th Grade. Price Range: $72-$80 per kit.

Kit includes tapes, workbooks, reading books and teacher's guides. The kit is designed to help students learn about their own community and to practice being a consumer.

Fill in the Blanks (I.E.S.S., Inc.) Workbook. Author: Stephen D. Match. Price Range: $4-$9 per workbook. Readability: High 5th grade.

This is an extension of Fill in the Blanks. The additional topics covered are: additional money and banking lessons, job and credit applications, tax forms, and leases; and new topics such as schedules (bus, train, airline), menus, health and life insurance, insurance claims, highway signs and road maps, and various government forms including draft registration (a timely topic), voter registration and sample

Fill in the Blanks (continued)

ballots, welfare applications, medicare, food stamps, and supplemental security are included. The life skills that can be taught using this book are necessary for almost every student.

Follett Coping Skills Series (Follett Publishing Company) Series of Workbooks. Price Range: $2-$5 per workbook. Readability: 3.5 grade.

A series designed to help prepare the student for the world of work. Each workbook contains exercises for each unit presented. The Coping Skills Series includes the following titles: Budgeting, Getting Medical Assistance, Finding Work, Job Interviews, Using Community Resources, Using Transportation, Banking and Family Planning.

The Getting Along Series of Skills (Frank E. Richards Publishing Company, Inc.) Workbooks. Author: Helen Prevo. Price Range: $2-$6 per workbook. Readability: 4.5 grade level.

A series of five workbooks dealing with Family life, Looking for a Job, A Job at Last, Money in the Pocket, From Tires to Teeth. These books are in a workbook format and could be used with the high school student.

How Do I Fill Out a Form? (I.E.S.S., Inc.) Readability: Varies according to each form. Duplicator Master. Price Range: $8-$12 per book of masters.

Federal and state government forms, financial and insurance forms and a variety of others selected from different parts of the country are covered. Each form is presented as a duplicator master to provide each student with his or her own copy, thus stimulating the actual experience of filling out forms.

How to Explore the Fascinating World of Work (National Career Consultants, Inc.) Series of six books with six filmstrips per book. Price Range: $27 per title.

This is one unit of a series of six books with six filmstrips per book. This unit is an overview of the series and various career opportunities.

The Money Series (Hopewell Books, Inc.) Price Range: Set of 10 titles: $25-$30 per set. Readability: 2.5 grade level.

The Money Series (continued)

A series dealing with everyday living problems from banking to where to get medical help. This series would be good for low readers needing a low vocabulary, illustrations and short sections. Includes the following 10 topics: Banking; Buying a House; Buying Furniture for Your Home; Finding a Place to Live; How to Borrow Money; How to Budget Your Money; How to Buy Clothes; Bow to Buy Food; Insurance; Where to Get Medical Help.

More Fill in the Blanks (I.E.S.S., Inc.) Survival Skills Book. Author: Stephene Klein Match. Price Range: $6-$12 per book.

Fill in the Blanks is a survival skills book. The first five chapters deal with using money, checks, savings accounts, credit cards, and mail-ordering. This would be an excellent supplementary material to any consumer math class. Application forms of all kinds are covered in the remaining chapters. They range from getting a Social Security number, to job applications, work permits, tax forms, leases, car loans, auto insurance, and post office forms. Survival reading skills are also included: newspaper ads, classified, etc. Math skills are also covered in conjunction with topics such as totaling bills, figuring interest, budgeting and figuring net pay. An excellent resource for any school. Readability: 6th grade.

Objective Cluster Bank Volume II: Career Education (Edmark Associates) Notebook. Price Range: $25-$30 per notebook.

A handbook on career education covering awareness, orientation, exploration and action. This volume includes indices of self goals, work goals, leisure goals and resource goals. An indepth objective cluster bank constitutes a major section of this manual.

Project VIEW (Project VIEW) Packet. Price Range: $1-$5 per packet.

VIEW stands for Vital Information for Education and work. This packet contains job explanation for almost every imaginable career. Includes description of the job, aspects of that career, what you should enjoy doing in order to like that job, what you need to know and learn in order to learn the career, and where and how to find more about each career.

CAREER AND VOCATIONAL EDUCATION

Reading for Survival in Today's Society, Vol. 1 and 2, (I.E.S.S., Inc.) Book. Price Range: $10-$14 per book. Readability: 9th grade.

This two book volume is intended to be a resource book for teachers and a text for students for a 36-week course in functional reading. The material contained in these two volumes are used to help students develop the specific survival reading skills they will need to interpret print in any form and format. These volumes serve as an introduction to contemporary functional reading.

Type It (Educator's Publishing Company) Text. Author: Joan Duffy. Price Range: $4-$8 per text.

Type It is a useful supplement to the typing teacher who has mainstreamed students in his/her classes. It may also be used by special education teachers, who teach word recognition skills along with basic typing skills.

The format is easily learned by the student, who can complete his/her lessons with a minimum of extra time from the teacher. It would be especially useful for students who, for one reason or another, cannot keep up with the pace of the regular typing manual. The lessons are short, so that the student is not overwhelmed by the volume of material. The lessons are highly structured, teaching letter combinations which are frequently encountered in everyday reading and writing in a linguistic approach.

The typing teacher will have to supplement the manual, since it offers no instruction in margins, format, etc. There is no orientation to the typewriter, and certain parts, such as the importance of the home keys, and perhaps reinforcement of the home keys, are not covered in depth.

Using Fingers on a Typewriter (Academic Therapy Publications) Textbook. Author: Grace Petitclerc. Price Range: $1-$5 per textbook.

This manual was developed to teach young children to type. It is especially designed for students from 6-12 years old. It is very appropriate for older students with learning problems. The manual relies heavily on a visual memory practice orientation. While written for the teacher, it can also be used by students. The manual strongly encourages the use of an electric portable typewriter. It is only 32 pages long and does not have as many sample exercises as a bound typing book.

Vocational Entry-Skills for Secondary Students (Academic Therapy Publications) Worksheets and Manual. Author: Winifred Y. Washburn. Price Range: Worksheets for Students: $4-$7; Manual: $10-$15 per manual.

Vocational Entry-Skills for Secondary Students (continued)

A series of teaching units giving short term training in the basic skills needed for entry into most kinds of beginning vocational classes. Lessons are structured to improve study habits and to utilize resources and equipment already available in the school and local community.

The World of Work (New Readers Press) Readability: 7.5 Grade level. Textbook. Authors: Kay Koschnick and Stephen Ludwig. Price Range: $1-$5 per book.

Much of the material in this book first appeared in the weekly newspaper, NEWS FOR YOU. Chapters on jobs for teenagers, jobs for mature workers, jobs for the handicapped and job training programs. Good supplementary book for career education.

STUDY SKILLS

Basic Thinking Skills (Midwest Publications) Readability: 4th grade. Program consisting of thirteen booklets. Price Range: $3-$6 per title or book.

This program consists of thirteen booklets for sharpening thinking skills using class discussion and/or individual student written response. The booklets do not have to be used in any sequence. Most material on each page can be completed in about 5-20 minutes each.

Critical Thinking, Book and Teachers Guide (Midwest Publications) Readability: 7th grade. Textbook and teachers guide. Price Range: Teachers Guide: $3-$6; Text: $8-$12 per book.

Textbooks on logic and critical thinking typically are too involved and complex for the learning disabled or younger student. This book presents the same subject matter in a clear, simple presentation. Plenty of exercises accompany each section. Topics include logic, errors in reasoning, propaganda techniques, advertising and schemes, and examining arguments and value judgments.

Deductive Thinking Skills (Midwest Publication) Series of 8 booklets or workbooks. Price Range: $3-$6 per title or book. Readability: 6th.

Deductive Thinking Skills series of booklets is used to sharpen the deductive thinking skills of students for better reading comprehension, math, writing skills, science, test taking skills, etc. This series consists of seven books which are supplementary, non-graded, low readability and interdisciplinary. Titles include: Warm-up Mind Benders, Mind Benders A1, A2, B1, B2, C1, C2 and Mind Benders-Instructions.

Following Directions - Intermediate (I.E.S.S., Inc.) Book. Price Range: $2-$5 per book.

Designed to give students skill and confidence in interpreting and following directions of various kinds. Exercises include learning to break information down into steps, looking for key words, and following simple instructions. Some of the activities require pencil and paper while others involve constructing materials or carrying out activities inside or outside the classroom.

STUDY SKILLS

Inductive Thinking Skills (Midwest Publications) Readability: 6th grade. Set of 11 titles (workbooks). Price Range: $3-$6 per title or workbook.

This series of workbooks (also available in duplicating masters) includes the following titles: Cause and Effect, Figure Patterns, Figure Relations (A & B), Inferences (A & B), Open Ended Problems, Reasoning by Analogy, Relevant Information, Spatial Perception (A & B). Cause and Effect and Relevant Information are especially appropriate for learning disabled students with reading difficulties. Spatial Perceptions and Figure Relations are good for students with perceptual problems, though they may be too difficult for some slower students. The stated goal is to provide students with inductive thinking experiences as opposed to the deductive thinking experiences which are often emphasized in education. Each problem is intended to be read individually then discussed as a group. The teacher's guide presents the salient points of each problem and explores possible solutions. This material can be effectively used to improve reading comprehension.

Pacer Junior Film Viewer (Eye Gate Media, Inc.) 35 MM Strip Film Viewer. Price Range: $8-$11 per viewer.

Hand held film strip viewer for individual students use. Does not require cords, lights or batteries.

Thinklinks (I.E.S.S., Inc.) Small Kit. Price Range: $11-$15 per kit.

Thinklinks consists of 12 plastic tiles in a case. Each tile is numbered and has a pattern on the back. They can be adapted to nearly any content area. The student matches questions and answers (supplied by the teacher). If done correctly, the correct pattern will appear on the tiles - thus immediately reinforcing the correct answers. Using Thinklinks in the classroom will save students from the boredom of endless ditto sheets, free the teacher from stacks of papers to correct, and provides students with immediate feedback. Useful for all students, grades K-12.

AFFECTIVE DOMAIN

The Book of Think (Creative Publications, Inc.) Book. Author: Marilyn Burns. Price Range: $5-$7 per book.

This book offers a multitude of activities to stimulate creative thinking. It is an excellent material to use with students to teach problem solving strategies. The activities could either be group oriented or individually directed.

Making It On Your Own (I.E.S.S., Inc.) Readability: Low 4th. Price Range: $4-$6.

This book introduces students to many concerns in adult living. It is in a narrative format with comprehension questions following each lesson. Includes topics such as looking for employment, budgeting, job application, interviews and marriage.

Self-Science: The Subject is Me (I.E.S.S.,Inc.) Book. Price Range: $10-$12.

Self-science is an experience-based program designed to incorporate the cognitive domain with the affective domain. The aim of this text is to equip students with skills that can broaden their understanding and functioning in all learning and social situations. The program consists of sixty-four lessons grouped under ten goals.

Turn-Ons! 185 Strategies for the Secondary Classroom (Fearon Publishers) Book. Author: Stephen K. Smuim. Price Range: $7-$10.

This book is written primarily for classroom teachers. The strategies described can be used to introduce or further develop a theme. The strategies are arranged in a developmental order and can be adapted for use in several curriculum areas.

Turner Livingston Reading Series (Follet Publishers) Readability: 4.0 Series of six text-workbooks. Price Range: $1.75-$2.00 per book.

This reading series has six text-workbooks with such topics as "The Person You Are", "The Family You Belong To", "The Friends You Make" and more. They contain a number of short stories, each followed by work pages. This series, according to the author, is designed for culturally deprived or slow-learner students. The series teaches language arts while dealing with the social and affective domains.

Stamina..... 52
The Ungame..... 52

GAMES

Enemy Agent (Milton Bradley) Game. Price Range: $3-$5 per game.

Enemy Agent requires the student to utilize visual memory and strategy skills to find his opponent's master plan and rush back to a check point to win the game.

The Farming Game (The Weekend Farmer Company) Game. Price Range: $9-$15 per game.

Although it was not designed as an educational game (or perhaps because it wasn't), the Farming Game provides an enjoyable method for students to practice math skills, organizational skills, and decision making. The object of the game is to successfully run a farm while holding a job in town. The student gains an understanding of economic principles (capital, interest, loans, down payments, etc.), the problems of the small businessman, and the ups and downs of the farmer throughout the year. Students enjoy playing the game, and it can be used as an incentive for other work. The math skills reinforced are: basic operations, percent calculating down payments, interest, decimals, etc. The game has a special appeal to students in rural communities.

Stamina (Creative Publications) Game. Price Range: $3-$6 per game.

This is fast-moving spinner game for one or more students that provides interesting practice with addition, subtraction, multiplication and division of whole numbers.

The Ungame (The Ungame Company) Game. Price Range: $9-$14 per game.

A non-competitive game designed to give players experience in learning how to communicate more effectively. Promotes a deeper understanding of self and others.

PROFESSIONAL MATERIALS

Affective Education Guidebook (I.E.S.S., Inc.) Book. Authors: Bob Eberle and Rosie Emery Hall. Price Range: $7-$12 per book.

This book was prepared for use by elementary and junior high school teachers. Learning activities and instructional plans especially designed to improve interpersonal relationships are shown. The format of this book addresses humanistic education in a positive and dynamic way.

Assessment of the Exceptional Learner in the Regular Classroom (Love Publishing Company) Book. Author: Mary Ross Moran. Price Range: $4-$9 per book.

This resource explores various types of assessment as well as an explanation of the assessment process and the roles of various individuals who are likely to be involved on an Assessment Team.

This 115 page booklet is appropriate for the special teacher but also has some good chapters for the regular teacher.

Assessing the Learning Disabled: Selected Instruments (Academic Therapy Publications) Book. Author: August J. Mauser, Ed.D. Price Range: $4-$9 per book.

This book breifly describes more than three hundred assessment tools applicable for the evaluation of children and adults with learning disabilities in terms of age applicability, time to administer, and salient characteristics. The majority of the tests presented have been standardized and are commercially available.

The Band-Aid Kid (Association for Children with Learning Disabilities, ACLD) Book. Authors: Eric J. Straubinger and Claire E. Nagle. Price Range: $1-$5 per book.

This book is a description of the program for learning-disabled adolescent boys who have been committed to a Colorado institution for delinquents. Identification, observation, and diagnosis are briefly discussed. The program described is child-centered education, including classroom design, teacher style and reward systems.

PROFESSIONAL MATERIALS

The Basic Language Kit (Treehouse Associates) Book. Author: Martin S. Weiss and Helen Ginandes Weiss. Price Range: $6-$11 per book.

This book is written from a perceptual-deficit approach to teaching the learning disabled adolescent. The total perceptual therapy program is highly structured with an emphasis on phonics training combined with structural analysis, and would not be suitable for all students. However, the book contains several useful ideas for both the resource room and the regular classroom. The last chapter contains directions for teacher-made games to use in teaching phonics and structural anslysis.

Career Education: A Counselor's Guide (Oklahoma State Department of Vocational and Technical Education) Book. Price Range: $3-$9 per book.

The purpose of this instructional unit is to help school counselors upgrade their knowledge and skills concerning career education. It provides a clear, concise overview of career education and helps counselors understand precisely what his or her duties would be to support career education. Each unit of instruction is based on performance objectives. It can be used individually, as in-service workshops, or as preservice education for counselors. A suggested supplementary reading list is given at the end of each unit.

Career Education for the Handicapped: Current Perspectives for Teachers. (Educational Resources Center) Book. Editors: Gary M. Clark, Warren J. White. Price Range: $7-$12 per book.

This book evolved from a series of presentations given for Career Education for the Handicapped: Midwest RETOOL Consortuim (MRC). MRC dealt specifically with "retooling" career education teacher trainers to work with the handicapped.

Change for Children: Ideas and Activities for Individualized Learning (Goodyear Publishing Company, Inc.) Book. Authors: Sandra Nina Kaplan, JoAnn Butom Kaplan, Sheila Kunishima Madsen, and Bette K. Taylor. Price Range: $8-$13 per book.

The activities and techniques presented in this book provide a guide and model for teachers to individualize learning within their classrooms.

Changing Perspectives in Special Education (Charles E. Merrill Publishing Company) Book. Edited by: Rebecca Dailey Kneedler and Sara G. Tarver. Price Range: $6-$11 per book.

Changing Perspectives in Special Education (continued)

This book contains a good review of the pertinent literature explaining the development of special education. The six sections relate to: past perspectives, methology, diagnosis and evaluation programming and services, research, and future perceptions. Seventeen different authors contribute to give a good review of the "state of the art" in Special Education.

Classroom Ideas for Encouraging Thinking and Feeling (I.E.S.S., Inc.) Book. Author: Frank E. Williams. Price Range: $7-$12 per book.

This book contains 387 different ideas to enhance thinking and feelings in kids. This book has been designed around a conceptual model suggesting teacher strategies to attain certain pupil objectives through use of subject matter content. Particularly beneficial for gifted and talented classes; also useful in regular and special classes. Subject areas include language arts, social studies, science, arithmetic, and art/ music. This book primarily is for elementary students but can be used with junior high students.

Communicating with Parents of Exceptional Children (Love Publishing Company) Book. Author: Roger L. Kroth. Price Range: $4-$9.

An excellent resource for classroom teachers as well as parents. This is a book of techniques that teachers can employ which will maximize the possibility for improved home/school cooperative efforts. The book is divided into three section: I. Understanding, the Child and His Family; II. Providing Parents with Information; III. Problem Solving and Parents.

Doodling Your Way to Better Recall (Academic Therapy Publications) Book. Author: Linda G. Smith. Price Range: $2-$7.

A "how to" book on "patterning". Gives ideas on how patterning can be used in the classroom allowing students to access and store linear information in a spatial and visual ways.

Educational Interpretation of the Wechsler Intelligence Scale for Children-Revised (WISC-R) (Remediation Associates, Inc.) Book. Authors: Sherman Jacobson and Thomas Kovalinsky. Price Range: $3-$9.

This book briefly but thoroughly presents a description of each subtest of the WISC-R, including a discussion of the skills involved in the subtest. The authors then

Educational Interpretation of the Wechsler Intelligence Scale for Children-Revised (WISC-R) (continued)

present some suggestions to the teacher and things to consider in working with a student on the skills represented in the subtest. Several specific remedial procedures listed for Primary level (Grade 1-2.5), Upper Primary level (Grades 2.5-3), Intermediate level (Grades 4-6), Junior High level (Grades 7-9). A thorough list of references and materials, including addresses, activities, and levels for each subtest skill is provided.

This book would be very useful to anyone using the WISC-R in prescription writing.

The Educator's Enigma: The Adolescent with Learning Disabilities (Academic Therapy Publications) Book. Price Range: $2-$5 per book.

This booklet offers a description of the adolescent who is learning disabled. It discusses identification of the student, reactions of the student, and general techniques for teaching.

The Effect of Affect (Academic Therapy Publications) Book. Author: Anthony J. Cedoline, MS. Price Range: $3-$6 per book.

This book is written to aid the classroom teacher in developing an awareness of the importance of affective education for students, and also to provide teachers with classroom activities in the affective domain. It is highly successful in fulfilling the goal of providing activities. Practical, ready-to-use activities are presented in areas such as, "Getting to Know You," "Role Playing," and "Love and Respect." The book can be highly recommended for educators seeking educational activities in the affective domain.

Effective Helping: Interviewing and Counseling Techniques (Duxbury Press) Book. Author: Barbara F. Okun. Price: $7-$11 per book.

This is a book developed as an introduction to interviewing and counseling skills for use in both professional and paraprofessional settings. The content is appropriate primarily for beginning courses in human relations and counseling theory and process.

Everybody Counts! (Council for Exceptional Children) Book. Price Range: $12-$15 per book.

A workshop manual to increase awareness of handicapped people. This booklet provides a series of simulation

Everybody Counts! (continued)

and activities that may be used in workshops to help participants experience problems of handicapped students. A tape recording of an unfair hearing test accompanies the booklet.

Free Stuff for Kids (Meadowbrook Press) Book. Authors: Pat Blakely, Barbara Haislet, and Judith Hentges. Price Range: $2-$6 per book.

Contains over 250 listings of items that students can send away for. This book is designed for independent use by students who can read and write. General directions tell exactly how to send a request.

Focus (Educational Service, Inc.) Book. Price Range: $5-$10 per book.

This handbook covers a multi-faceted approach to intermediate social studies. Each section, History, Geography, Community Life, Civics and Economics and Culture contains games and activities to promote student understanding of each area. All of these teacher tested ideas, which include illustrations, are presented in a manner which motivates the student's interest and cuts the teacher preparation time.

Focus on Learning Problems in Math (CT/LM) Journal. Price Range: $4-$6 per journal.

A monthly interdisciplinary journal, directed to an international audience of educators who are working with persons with mathematics disabilities. The focus is on the student who has difficulty in conceptualizing, learning and using mathematical concepts, skills and knowledge. The major objective of this journal is to make available the current research, methods of identification, diagnosis, and remediation of learning problems in mathematics from the fields of education, medicine, psychology and mathematics.

Glad to Be Me (Prentice-Hall, Inc.) Book. Edited by Dov Peritz Elkins. Price Range: $3-$6 per book.

This book consists of a collection of readings drawn from authors as diverse as Shakespeare, Cord, Rogers, and Spinoza. The readings are intended to stimulate thinking in the affective domain. Subtitles include: Accept Yourself, Respect Yourself, Be Yourself and Relating to Others. Individual readings may serve as discussion topics in classroom settings. The teacher

Glad to Be Me (continued)

will need to monitor the students comprehension of the readings since readability is not controlled.

The Group Leaders Handbook (Research Press) Handbook. Price Range: $10-$15 per book.

This handbook has been written to assist one in understanding how to plan and facilitate group meetings. The handbook reviews theoretical approaches involved in group counseling, and the chapters proceed with a process of helping the facilitator organize the group select goals and objectives. It provides ideas and suggestions for things to do in the group, and shows how to evaluate the success of the group.

How to Love Every Minute of Your Life (Prentice-Hall, Inc.) Book. Authors: Gay Hendricks and Carol Leavenworth. Price Range: $4-$9 per book.

This very readable book explores the way we as individuals deal with our feelings and learn to express and live with feelings. Useful in individual counseling, the authors offer it as a help to live a fuller, more creative life. It helps people learn to trust, love and understand others while discovering how to achieve the inner strength and balance of a centered life.

How to Study in College (Houghton Mifflin Company) Book. Author: Walter Pauk. Price Range: $4-$9 per book.

This book has much application to secondary level students who need to develop study skills. Passages may be excerpted by teachers for use in study units. An excellent resource for the special educator.

Individualizing Instruction (C.V. Mosby Company) Book. Author: C.M. Charles. Price Range: $11-$15 per book.

This book gives an indepth look into the concepts underlying individualized instruction. A very readable 228 page book, it contains several excellent chapters. A few of the chapters are: Humanism, Self-concept, Individualization, Diagnostic Prescriptive Teaching, Modularized Instruction, Learning Centers, and Mainstreaming.

An Interdisciplinary Approach to Reading and Mathematics (Academic Therapy Publications) Book. Authors: Sheldon N. Russell, EdD and William P. Dunlap, PhD. Price Range: $4-$9.

An Interdisciplinary Approach to Reading and Mathematics (continued)

Consists of a series of parallels drawn between mathematics and reading in order to exemplify the similarities in diagnostic procedures, terminology, and skill sequences. Clinical procedures and diagnostic tests that are frequently employed in the reading area are analyzed relative to their utility for adaptation to mathematics diagnosis. A comparative analysis of classification systems, theories, and skills is made in an effort to bridge the gap currently existing between the disciplines.

Introduction to Diagnostic-Prescriptive Teaching and Programming (Exceptional Press) Book. Authors: John Stellern, Stanley F. Vasa, and Jack Little. Price Range: $14-$20 per book.

This resource book has a test by test description, analysis, and suggested use of most common psycho-educational instruments currently in use. Prescription management and use of diagnostic information is fully explained with a variety of appropriate examples. Small print, but excellent material. Three hundred fifty nine pages.

K-12 A Guide for Developmental Vocational Guidance (Oklahoma State Department of Vocational and Technical Education) Book. Price Range: $2-$5 per book.

A guide to give students an opportunity to develop a reservoir of information, attitudes, and experiences which will help serve as a foundation for career choices.

Kaleidoscope Activities in Creative Writing and Drama (Teaching Resources) Book. Author: Gordon Porterfield. Price Range: $16-$20 per book.

The purpose of this book is to demonstrate easy ways for teachers to develop and teach a creative writing/drama program. Can be used successfully from grades 6 through 12.

Kid's Stuff (Language) (Incentive Publications) Book. Author: Marjorie Frank. Price Range: $10-$15 per book.

Kid's Stuff has been written to help teachers plan and present communication skills more effectively. The purpose is to provide motivation, reinforcement, and enrichment for ongoing language learning. Special attention has been given to their applicability to individualizing instruction. It has been categorized into four major areas: Reading, Speaking, Listening, and Spelling and Writing. Intermediate and junior high reading and language experiences.

PROFESSIONAL MATERIALS

Kid's Stuff - Math (Incentive Publications) Book. Author: Marjorie Frank. Price Range: $10-$15 per book.

This book is for teachers who enjoy working with young mathematicians. It was written to add activities, games, and learning centers, along with fresh ways to make mathematical ideas an active part of the lives of students.

The experiences vary widely and can be used in all kinds of classrooms. They may easily be adapted to different ability levels and teaching methods. Each idea is designed to fit a specific math skill. A complete list of skills for the elementary years is included in the appendix.

The appendix also includes an extensive glossary of math terms, formulas, symbols, and measures.

The Learning Disabled Adolescent: Program Alternatives in the Secondary School (C.V. Mosby Company) Book. Authors: George E. Marsh II, Carol Kozisek Gearheart, and Bill R. Gearheart. Price Range: $16-$20 per book.

An excellent textbook dealing with the education of learning disabled adolescents. The text has a practical orientation emphasizing remediation and compensation for disabilities, motivation, and the realities of setting up a program in the secondary school. Examples of model programs are presented in the last section of the text.

Listen to Us! (I.E.S.S., Inc.) Book. Edited by Dorriet Kavanough. Price Range: $5-$9 per book.

This is a book composed of poems, thoughts and stories from children about: "I'm the only me I've got," family, divorce, school friendship, children with special problems, children in trouble, sex, television, money, religion and feelings. A poignant, touching collection of children's writings masterfully choreographed into a readable volume. Two hundred fifty five pages of emphathic revelation. Edited from a roundtable discussion of more than 2,000 children.

Mainstreaming in Action (Encyclopaedia Britannica Educational Corporation) 16 mm Film. Price Range: $425-$450 per film.

This film is excellent in that it looks at mainstreaming from a teacher's perspective. Questions are varied and situational examples of classroom teachers who are

Mainstreaming in Action (continued)

successfully coping with those problems in a mainstreamed environment are shown. The film particularly deals with "visible" handicaps rather than the "non-visible" i.e. LD, EMH, etc. The film is appropriate for both elementary and secondary teachers but the emphasis is on elementary.

Mainstreaming: Controversy and Consensus (Academic Therapy Publications) Book. Edited by: Patrick A. O'Donnell and Robert H. Bradfield. Price Range: $4-$9 per book.

This book addresses a collection of concerns dealing with mainstreaming. There are 11 chapters, each one written by a different author on a specific issue. Chapter 1 traces the involvement of the legal system in education. Chapters 2 and 3 review the research on the history and effects of mainstreaming in our school system. Chapters 4-6 deal with the issue of assessment and placement within special classes. Chapters 7-9 outline several alternatives in special placement and two effective programs. Chapters 10-11 suggest some criteria to consider for successful mainstreaming.

Mainstreaming Handicapped Students: A Guide for the Classroom Teacher (Allyn and Bacon, Inc.) Book. Authors: Ann P. Turnball and Jane B. Schulz. Price Range: $8-$11 per book.

An excellent resource for the classroom teacher who desires to know more about mainstreaming both, the legal and practical aspects of Public Law 94-142. Useful as a text on the exceptional child or as an introduction to a mainstreaming course. It is a good source book of information concerning characteristics of handicapped children and specific suggestions for the classroom teacher.

Mainstreaming the Learning Disabled Adolescent (Charles C. Thomas) Book. Author: William E. Chaiken and Mary Joyce Harper. Price Range: $12-$15 per book.

This manual describes a program designed to serve learning disabled adolescents with a resource room model. The book includes special characteristics of learning disabled adolescents, ways to organize and develop a learning disabilities resource program in the middle school, evaluation techniques for assessing student progress, and procedures for implementing a mainstreaming program. A special feature of the book is a list of ways in which classroom teachers can easily adjust instructional time, lesson preparations, and evaluations for learning disabled students.

PROFESSIONAL MATERIALS

Math In and Out of the Mainstream (Academic Therapy Publications) Book. Authors: Lyon and Karplus. Price Range: $5-$10 per book.

This 100 page book is designed to offer help for teachers and parents of students who have learning problems, expecially those relating to math. After introducing the type of student and accompanying problems, the author presents a number of practical suggestions. Several important topics include: knowing what to attend to and how to pay attention, reasoning, expecting order and sense in life and questioning, looking for information. This book is written for teachers and parents of junior high and high school students.

The Math Teaching Handbook (Selective Educational Equipment, Inc.) Book. Author: Persis Joan Herold. Price Range: $12-$16 per book.

This is a handbook for tutors, teachers, and parents. The emphasis is on diacnosis and individual remediation. Although the primary emphasis is on elementary age students, the handbook contains many ideas and materials that would be useful with secondary students. It is a sourcebook for motivating ideas, games, and new ways to approach a difficulty, with an emphasis on using concrete materials.

Me? Teach Reading (I.E.S.S., Inc.) Book. Authors: Mary Beth Culp and Sylvia Spann. Price Range: $9-$13 per book.

This book contains activities for secondary content area teachers to incorporate reading skills into classes. There is a cross-reference of strategies for particular and/or general activities to be used in each content field. The book includes a unit on assessing reading levels and needs, getting students ready to read, building vocabulary, improving comprehension, developing referential skills, and teaching functional reading.

Meanings and Measures of Mental Tests (Jastak Associates, Inc.) Book. Authors: Dr. Joseph F. Jastak and Dr. Sarah Jastak. Price Range: $19-$23 per book.

The manual outlines a method of analyzing I.Q. scores and WRAT scores according to Jastak's Theory of global, lobal, and obal intelligence. Since there are other ways to analyze these scores that are more simple and straight-forward, and do not require familiarity with Jastak's divisions of ability, this is not recommended for everyday use. Those persons who are interested in Jastak's Theory will find it helpful.

PROFESSIONAL MATERIALS

Meeting Yourself Halfway (I.E.S.S., Inc.) Book. Author: Sidney B. Simon. Price Range: $4-$9 per book.

Thirty-one values clarification strategies for daily living are described in this book. This is a book to be experienced. Thirty-one reasons on getting to know self -- one a day for a month. Simon has condensed many of the activities from his other books into one exciting series designed to help you "meet yourself halfway".

The Memory Book (Ballantine Books) Book. Authors: Harry Lorayne and Jerry Lucus. Price Range: $1-$4 per book.

This paperback book describes the keyword, peg, and link memory techniques in detail. By using these techniques, it is possible to teach lists, vocabulary words, long words, numbers, and names/faces.

Mental Health in the Classroom (New Readers Press) Book. Price Range: $1-$5 per book.

A composite of ten articles reprinted from "The Pointer", a journal for special class teachers and parents of handicapped students. Topics include self-esteem, discipline, disturbed children, socially and emotionally improverished adolescents, school dropouts, frustration and counseling. Concerns children K-12 with emphasis on secondary students.

Mildly Handicapped: Social Studies, Kits and Series, Secondary Level (Ohio State University Press) Book. Price Range: $3-$8 per book.

The materials in this 16 page document were selected from NIMIS and judged potentially useful in teaching social studies skills to LD, ED, and EMH students at the junior or senior high grade levels. Related descriptors include history, geography, culture and map skills.

Motivating Today's Student (Pitman Learning, Inc.) Book. Authors: W. Drew, A. Olds, H. Olds, Jr. Price Range: $3-$5 per book.

Successful strategies to help teachers deal with specific motivational problems. Also included are many ideas, activities, and practical approaches that will help all students become motivated achievers.

The News and Observer/Raleigh Times Teach Reading and Math (I.E.S.S., Inc.) Newspaper. Price Range: $1-$3 per newspaper.

The News and Observer/Raleigh Times Teach Reading and Math (continued)

Newspapers can be used for more than current events. This replica of a North Carolina newspaper illustrates in detail (and with numerous examples) the activities that can be planned using each page of the newspaper. Activities include: identifying the parts of a newspaper and learning its organization, reading comprehension, math activities, written expression, word meaning, and values clarification. This publication is also valuable for finding means to motivate students.

Oh Dear, Somebody said "Learning Disabilities" (Academic Therapy Publications) Book. Author: Marnell L. Hayes. Price Range: $3-$8 per book.

This book focuses on how children learn differently, and stresses learning differences which apply to educating all children. The first chapter includes a workshop which can be replicated with a group for simulating the world as a child with learning differences would see it. This book can be easily understood by educators who are not well informed in the jargon of learning disabilities.

The Other Side of the Report Card (Goodyear Publishing Company) Book. Author: Larry Chase. Price Range: $9-$14 per book.

This book is a smorgasboard of ways to help students learn some of the survival skills they need today and tomorrow. These survival skills include: how to relate, how to be responsible, how to choose, how to cope with problems, how to love and how to think.

Our Educational Challenge (Academic Therapy Publications) Book. Author: Frances Borum DeWitt. Price Range: $3-$8 per book.

This book summarizes over twenty years of direct work with disabled learners which the author has experienced. Three models are outlined and discussed. A historical background and perspectives are also presented.

Parent Prerogatives: How to Handle Teacher Misbehavior and Other School Disorders (DELK) Book. Authors: Richard L. Weinberg and Lynn Goetsch Weinberg. Price Range: $10-$14 per book.

A manual addressed to parents giving specific positive suggestions for individual parental action for the many kinds of school problems which arise during a child's school year.

PROFESSIONAL MATERIALS

A Parent's Guide to the Resource Program (Academic Therapy Publications) Book. Author: Lydiann G. Hatfield. Price Range: $1-$3 per book.

Very general description of the nature and characteristics of specific learning disabilities. A few suggestions for parent involvement are given.

Placing Handicapped Students in the Least Restrictive Environment: A Model for Decision Makers (Pennsylvania Special Education Resource System) Book. Price Range: $1-$3 per book.

The purpose of this document is to suggest an approach for determining student placement that utilizes practical interpretations of the least restrictive environment and appropriate programming mandates. Sample charts and worksheets are provided as well as case studies.

A Practical Guide to Writing Goals (Academic Therapy Publications) Book. Price Range: $3-$8 per book.

The purpose of this book is to assist teachers at any level in diagnosing individual needs, methods and suggestions in writing objectives for individual needs and measuring individual progress are included.

Press (Educational Service, Inc.) Book. Author: Arnold B. Cheyney. Price Range: $5-$9 per book.

"Press" is a collection of ideas for utilizing the newspaper in a variety of curriculum areas. These areas are reading, writing, speaking, listening, vocabulary, math, social studies, science, values, career education and art. Each activity described includes an appropriate grade range, required materials (in addition to the newspaper), directions and variations. The teacher will want to evaluate the appropriateness of each activity for his/her class and consider the recommended grade ranges as guides.

This book contains many excellent ideas for ready-to-use activities which are motivating, instructive and appropriate for the learning disabled adolescent.

A Primer on Individualized Education Programs for Handicapped Children (Foundation for Exceptional Children) Book. Edited by: Scottie Torres. Price Range: $4-$9 per book.

The purpose of this primer is to provide a practical guide to administrators, teachers, and parents on how to meet the individualized education program requirements of Public Law 94-142. It is organized around the development of an individualized education program.

PROFESSIONAL MATERIALS

Reaching Teenagers: Learning Centers for the Secondary Classroom (I.E.S.S., Inc.) Book. Author: Don M. Beach. Price Range: $9-$14 per book.

This book advocates the learning center approach at the secondary level. Little new information is offered on the rationale of learning centers for those familiar with the concept. The strength of the book is the variety of ready-to-use learning center ideas. Sample learning centers, complete with learning objectives, directions and materials are provided in the following areas: English, Social Studies, Science and Math, Art and Music and Foreign Languages.

Readability Rater for Estimating Readability of Printed Materials (Academic Therapy Publications) Book. Created by: Ward Cramer and Roger Trent. Price Range: $2-$5 per book.

The formula used for estimating readability is a minor adaptation of Fry's formula. (Numerous devices similar to this one are available for those who choose to use a simple device rather than reading a graph.)

Sample Set For Parents (8 brochures) (Academic Therapy Publications) Brochures. Price Range: $1-$4 per packet of 8 brochures.

Set of 8 pamphlets for broadening the parent's concept of learning disabilities. Titles included are: "Dear Teacher"; "Dear Parent"; "Dear Doctor"; "Career Opportunities in Learning Disabilities"; "Helping Your Child at Home with Spelling"; "Helping Your Child at Home with Arithmetic"; "Helping Your Child at Home with Handwriting"; "Helping Your Child at Home with Reading". Elementary level.

School Consultation (Charles C. Thomas) Edited by: Joel Meyers, Roy Martin and Irwin Hyman. Book. Price Range: $10-$14 per book.

The four main sections of this book of readings are: psychoeducational diagnosis, behavior modification, mental health consultation and organization development consultation. A good source book with 30 authors contributing chapters on various aspects of consulting. A variety of school consultation techniques are described as they apply to pupil personnel workers.

The Special Student (C.V. Mosby Company) Book. Authors: Dr. C.M. Charles, Dr. Ida M. Malian. Price Range: $9-$14 per book.

An excellent resource for all teachers. The major purpose of this book is two fold: (1) to allay teacher's fears by describing the law, its requirements and the students who are involved, (Public Law 94-142); and (2) to present basic knowledge and practical skills for working effectively with the handicapped.

PROFESSIONAL MATERIALS

A Special Way for the Special Child in the Regular Classroom (Academic Therapy Publications) Book. Author: Patricia Murphy. Price Range: $2-$5 per book.

This book offers concrete suggestions to the elementary classroom teacher for helping the learning disabled child in the regular classroom.

Survival Skills for the Student with Learning Disabilities (Iowa Association for Children with Learning Disabilities) Book. Authors: Michele Riter and Ann Hoffman. Price Range: $7-$10 per book.

Instructional objectives, materials and activities are provided in the areas of personal living skills, employment skills and recreation. Useful for the resource teacher interested in instruction in these areas. Also helps facilitate the IEP writing process.

A Teacher's Guide To the Resource Room (Academic Therapy Publications) Book. Author: Lydiann G. Hatfield. Price Range: $1-$3 per book.

A very general outline of the concept of a learning disabilities resource room, written to help new teachers understand the situation better.

Teaching the Learning Disabled Adolescent (Houghton Mifflin Company) Book. Authors: Lester Mann, Libby Goodman, and J. Lee Wiederhold. Price Range: $9-$13 per book.

This book details all aspects of learning disabilities on the secondary level. It covers such areas as curriculum, instructional strategies, career and competencies for teachers. Multiple authors on learning disabilities contributed to this list appropriate for both educators and parents.

Teaching the Learning Disabled Adolescent: Strategies and Methods (Love Publishing Company) Book. Authors: Gordon Alley and Donald Deshler. Price Range: $14-$18 per book.

Programming, learning strategies, methods, activities and instructional materials for the learning disabled adolescent. Specific learning methods in reading, writing, mathematics, thinking, social interaction, listening and speaking are included.

Teaching the Mildy Handicapped in the Regular Class - A Component of the Sweetwater Plan (Project TAMEC) Book. Price Range: $10-$14 per book.

This manual is designed to assist educators in the implementation of the Sweetwater Plan. Information regarding the development of the Sweetwater Plan, its validation and recommendations for conducting a successful inservice

Teaching the Mildy Handicapped in the Regular Class - A Component of the Sweetwater Plan (continued)

experience in schools are contained in this booklet. The Sweetwater Plan is an on-site inservice program for regular classroom teachers that can be implemented by the resource teacher or other special education personnel assigned to a school.

Using Language Experience with Adults: A Guide for Teachers (New Readers Press) Book. Authors: Katherine Kennedy and Stephanie Roeder. Price Range: $1-$4 per book.

The four methods of using language experience in the classroom are explained, along with numerous examples of the use of language experience in teaching basic word recognition skills. The Guide is a clear, concise, and useful book for any teacher, regardless of the amount of training in remediation of reading difficulties.

Using Readability (New Readers Press) Book. Authors: Robert S. Lauback and Kay Koschnick. Price Range: $1-$4 per book.

This booklet is a guide for authors and evaluators of materials for adults or teenagers with limited reading ability. The Fog Index and the Fry Readability Formula are discussed, along with other factors that affect readability which are not included in formulas. The information on the Fry Readability is outdated, but the booklet is still a useful guide. It is clear, concise and includes exercises for practice.

Value Clarification in the Classroom: A Primer (I.E.S.S., Inc.) Book. Authors: J. Doyle Casteel and Robert J. Stahl. Price Range: $9-$14 per book.

Value Clarification in the Classroom was especially designed to be used in undergraduate, graduate and inservice teacher education courses and modules. It is especially appropriate for teachers who wish to incorporate value clarification in the fields of English, Social Studies, and Science. Numerous activities for use in the classroom are included in this manual.

Video (Educational Service, Inc.) Book. Price Range: $5-$9 per book.

A practical collection of teaching activities for utilizing television as a motivater and supporter of classroom instruction.

PROFESSIONAL MATERIALS

Vocational Mainstreaming (Academic Therapy Publications) Book. Author: Winifred Y. Washburn. Price Range: $6-$10 per book.

Vocational Mainstreaming is a easy to read introduction to serving the needs of learning handicapped young adults through a vocational orientation. Especially helpful to vocational teachers, this book explains all about characteristics of learning handicapped students, the federal laws, and specific suggestions for learning problems. Sample vocational IEP and IIP forms are included. Appendix is especially helpful.

Wad-Ja-Get? (Hart Publishing Company) Book. Authors: Howard Kirschenbaum, Sidney B. Simon, and Rodney W. Napier. Price Range: $3-9 per book.

The authors examine current practices and trends in grading through the story of a grading controversy at a mythical high school. Of special interest is the history of grading in the American school system. Alternatives to traditional methods of grading are proposed, as well as a model for change within a school.

WISC-R Prescriptions (Academic Therapy Publications) Book. Authors: Norma Banas and I.H. Wills. Price Range: $3-$9 per book.

The authors present their interpretation of each WISC-R subtest, describe profiles of abilities and relate these to learning styles. Ideas for developing prescriptive plans from WISC-R test information are given. The book provides some useful information for consideration but much of the work seems lacking in research support.
